Who's Dissatisfied?

The Dental School gripe amounts to a dissatisfaction on the part of an unidentified (perhaps total) segment of dental students with the ten per cent discount given at the student store. They want more, asserting that the store should be non-profit, the operating deficit of other departments of the Union to be made up by equitaxing of all students via a higher Union fee. This certainly would be in the better interests of dental students. It would not be in the better interests of any other students on our campus.

It has been repeatedly emphasized that the old dental student store profits were instrumental in attaining a debt-free building housing the student union. The entire campus is indeed indebted to the generosity and leadership provided by these past dental students. It seems unfortunate that the current dental students no longer see fit that the student store profit, which is now mandatory to *keep* (we hope) the union debt-free, should continue to serve this purpose.

I sympathize with the great financial investment necessary to attend dental school, and I advocate making purchases where convenience or price provide one with the best utilization of his money. Yet, I consider the out-and-out public announcement of a desire to boycott the student store as a small and inappropriate gesture. The students certainly accept this investment as inherent to their program.

SIDELIGHT: Take as example the prices stated in the article on this topic in the March 22, 1961 issue of *The Synapse*. The figures quoted as a rather exorbitant mark-up, \$75.00 retail, \$50.00 wholesale. This represents a $33\frac{1}{3}\%$ mark-up — a very fair mark-up for items of this nature. The 10% discount yielding a selling price of \$67.50 represents a 23.5% mark-

CAMPUS REVIEW SHOW

Watch for *THE ROARING 20s!* A campus talent show, the first of its kind, is on the way with *Miss Tina Rocco*, of the Union Recreation Department, sparking its path. We urge all students and faculty members who have talents of some nature to take part. *You* might be the one to walk off with the grand prize for the most talented presentation.

According to Miss Rocco, talents of any nature will do — the more peculiar, the better. However, if you can only sing, dance, or fool around, you'll also do. Talents along the lines of pantomimes, banjos, group singing, comedy acts or ??? are also desirable.

This Fascinating Riot will definitely be staged on May 5, 1961, 8:00 p.m. — 1:00 a.m. *Let's all join in for the fun!* ■

Anyone presenting a student body card will receive a special rate.

LAMBDA KAPPA SIGMA

Pharmacy Sorority

The Zeta Chapter of Lambda Kappa Sigma, a National Pharmacy Sorority, has recently been re-activated on this campus. As of this time, there are fourteen members, but the chapter hopes to increase this number during the coming year.

The following officers were elected: Charlotte Hemsworth, President; Ellen Fong, Vice President; Linda Raplee, Secretary; Jeanette Whitbeck, Treasurer; Deana Falkenberg, Historian; Patricia Ono, Sergeant-at-arms and Reporter.

In the latter part of May, the members from the Alpha Xi Chapter on the University of the Pacific campus are coming to this campus to initiate the new members. A dinner will climax the evening's activities.

The sorority hopes to provide social, as well as academic, activities for the young women in Pharmacy and to bring them closer together.

ATHLETIC AWARDS

Two trophies have been presented to the Millberry Union by the U.C. College of Pharmacy Phi Delta Chi Fraternity and "friends," in memory of Lloyd E. Johnston. These two impressive, 3-foot trophies are to be awarded each year to the individual or team who prove to be the most deserving of the honor.

One trophy will be awarded for the best athletic achievement. The other is for the best sportsmanship.

The Committee on Recreational Activities and the recreation staff members will decide upon the winners, based on their athletic performances and sportsmanship, and the first award of these two trophies will be given on *Award Night*, May 10, 1961. ■

CHARTER DAY

The U.C.M.C. Campus observed Charter Day, in conjunction with the Berkeley Campus, on Monday, March 20th. In observance of the anniversary, the 4th annual faculty research lecture was delivered Friday, March 24th, in the Auditorium of the Medical Sciences Building, by Dr. Warren D. Kumler, Professor of Chemistry and Pharmaceutical Chemistry.

Dr. Kumler spoke on the topic: "Structure of Molecules, Science and Religion."

Medical Sciences Exposition

The second annual Medical Sciences Exposition will again be presented this year by the student branch of the American Pharmaceutical Association. Exhibits will be open to the public in the gymnasium of Millberry Union on Thursday, Friday and Saturday, May 18, 19 and 20.

The purpose of the exposition is to present to all students of the U. C. Medical Center an opportunity to see the type of research and current developments being carried on in the different schools and departments of the Medical Center.

It is designed to give the students an enlarged perspective and increased insight into schools other than their own and an appreciation of the timely research being carried out on their own campus.

The exposition will also create an opportunity for students from junior colleges, pre-professional associations, and senior students from Northern California high schools who are considering a future in one of the Medical Sciences to get a closer look at fields in these professions.

Last year's traffic counts showed that between 300 and 400 people were entering the Exposition at peak hours, with an over-all attendance estimated at 4,000. This included over 500 high school seniors, and many interested people from the general public, who responded to the newspaper and TV coverage.

This year some forty exhibits will be on display representing all schools, and the following departments at U.C. Medical Center: Anesthesiology, Biomechanics, Cancer Research Institute, Oral Surgery, Periodontology, Dental Hygiene, Dietary, Hooper Foundation, Medicine, Medical Technology, Metabolic Unit, Ophthalmology, Neurology, Nursing, Otorhinolaryngology, Radiology Div., Allergy, Cerebral Palsy, Physical Medicine Rehabilitation, Physiology, Preventive Medicine, Psychiatry, Research and Development Lab, Surgery, Dermatology, Tropical Diseases, Pharmacology, Pharmacy, and others.

Graduate Student Association

With the transfer of the basic science first-year departments of the School of Medicine to the San Francisco campus, there has occurred a concurrent transfer of the graduate students within these departments who are working toward the Ph.D. degree. Together with departments which were already in existence on this campus, there are now over 100 graduate academic students here studying for the Ph.D. degree. Plans for future expansion of the Medical Center include an increase in the number of graduate academic students on this campus to 400.

Recognition of the fact that the graduate students of the academic departments will play a progressively more significant role in student affairs and that the needs and interests of graduate students are often distinct from those of the existing professional student bodies, has led to an investigation of the desirability of initiating a Graduate Student Association. At a meeting held on March 24, these efforts culminated in the adoption of a constitution to provide the fledgling Association with a statement of objectives and with a degree of internal organization to guide it in the conduct of its future activities.

All graduate students of academic departments on this campus awarding the Ph.D. degree are eligible to participate in the Graduate Student Association. The Association's activities are governed by a Steering Committee composed of representatives from each of the five numerically largest graduate academic departments on this campus.

The representatives for the forthcoming year are Dan Morales (Biochemistry), Howard Johnson (Pharmaceutical Chemistry), Dan Graney (Anatomy), Vivian Millington (Physiology) and Liz Evans (Pharmacology).

Among the activities now being planned are a picnic on May 7, a dinner on June 3, and a winery trip at the beginning of the fall semester. Details will be announced at a future date.

"Quick Service for Busy People"

Items from the School of Pharmacy

One item which has been a source of aggravation to the students of the School of Pharmacy is the administration's handling of the schedule for final examinations. Each semester, the students are forced to wait until two or three weeks before finals before they know the time of examinations.

This is not critical during the fall semester, but during the spring semester it is quite important to many students. Those leaving on vacations would like to make plans and others would like to let their employers know when they will be available.

We now know the last date that examinations could be held, but how often do they last until that date? There is no reason that this schedule could not be made available at the start of the semester as it is on the Berkeley campus and others throughout the state.

SPORTS AND RECREATION

INTRAMURAL SPORTS

MEN'S BASKETBALL

Once again, the powerful men's intramural open Basketball League opened last Thursday with a fine display of basketball talent. The league is composed of seven teams and is played in the Steninger Gym on Thursday evenings, between 6:30 and 9:30 p.m.

Last week's opening game was a match between the Frosh Meds and the S.P. Hospital. Both teams proved to be exceptionally strong defensively and were equally matched for the greater part of the game. The Frosh Meds drew blood first on a jumper by Dave Smith. On the following down court play, John Crew evened the score with a corner set. At half time the score was 17-15 in favor of the Frosh Meds.

The third quarter of the second half of play was very much the same, good defense and bucket for bucket trading. But, at the start of the last eight minutes of play, the Frosh Med team exploded with a series of outside shots by Dave Smith, Dave Alvarez and Kevin Harrington, that left the S.P. Hospital team too far behind to catch up, with a resulting score of 34-25 at the end of the game.

The second game of the evening was a run-away tilt between a surprisingly strong Kappa Psi team and a disorganized, but otherwise well talented, Med House Staff team. This contest was a pure display of excellent individual talents of Rich Lee, George Salmon and Don DeZorda, of the Kappa Psi team. Rich Lee tallied 18 points for individual high of all the games. Kappa Psi won, 38-23.

The Sophomore Dental team proved again that they can be tough, by trouncing the Frosh Dental team 38-27. This game was marked by fine shooting from the floor by Mike Paull, Harvey Brody and Ron Miller of the Soph Dental team. The contest was the Soph Dents from the very start of the game, as Mike Paull put them ahead to stay with the very first bucket of the game.

(Among the teams competing for championship honors are the Sophomore Medical team, the Freshman Medical, Sophomore Dental, Freshman Dental, House Staff, Kappa Psi, and S.P. Hospital teams.)

CO-RECREATIONAL INTRAMURAL BOWLING

After several weeks of competition of the eight teams contending, Radiology leads in first place with a total win of 16 games and a loss of 5. Closely following this lead is the Boozers with 15 wins and 6 losses.

The members of the Radiology team are V. Van Doren, P. Shanks, Charles Meier and Tom Piatt, with Piatt top man, having a total game average of 158.

Third place team, the "BB" Four, won 12, lost 9. The Goofers and Handy Kats are tied for fourth spot honor with a 10 win and 11 loss record. In the sixth spot, the Strike-Outs won 8, lost 13. Next in line, the Savages, won 7, lost 14. In the cellar of the league, Biochemistry won 6, lost 15.

Individually in the men's realm, Glenn Webb of the Boozers has the highest series with 592, Hemp Geran of the Goofers with highest game of 222 and again Glenn Webb with highest average of 164. In the women's world it is completely Rose Hong. She is the highest in series with 497, game with 246 and average with 145.

TOURNAMENTS

Badminton Tournament: Lauren Anderson, a second year dental student, became men's badminton champ and Lida Chase the first to win the women's tournament. Both defeated their opponents to grab the first place honors in the tournament last Monday, April 10 in the Steninger Gym. Competition was on a single elimination basis with the winner of one game playing the winner of another down to a two-man finish.

In the men's division Dennis MacKenzie won second place. Jay Singleton, Mark Kohn and Dick Libby tied for third place. In the women's division, Loretta Tuck won second place, Fran Rice third.

Individual awards will be given the winners at Intramural Awards Night, May 10, 1961.

Billiard Tournament: Attention, all billiard enthusiasts! A tournament of high caliber will be held on May 3, 1961, with some of the campus top billiard performers competing. Sign-ups are still being accepted at the Union Central Desk.

A perpetual plaque award will be presented to the winner on Awards Night. Competition is open to Union members only.

SPORTS

SIX-MAN VOLLEYBALL LEAGUE

Springing into its second week of competition, the six-man volleyball league proved to be very competitive, as all its team members were well conditioned from playing two-man volleyball a few weeks ago.

Seven teams made up the league. Shannon Wong heads and manages the Half Aztecs. Chung Fong sparks the Ridge Finders (the dental alveolar ridge, of course!). Jerry Sayre leads the Sophomore Dental team; Leo Berk, the Medical School; A. R. Naik, Pharmaceutical Chemistry; Alex Ravnik, the Pharmacy School and Greg Brott, the Freshman Medical team.

WINNERS

(L-R) Rose and Wong

Two-Man Volleyball Competition

Rose and Wong
Jorgensen and Alvarez

Relay winners, Women's Swim Meet
"Physical Therapy"— Mary Labuda, Gwen Bell,
Carol Edwards and Pat Ellison

Miss Abigail "Libby" Van Buren receives kisses from
Lida Chase and Loretta Tuck as "she" was ruled
ineligible to compete in women's swim meet.

Men's Intramural Swim Meet

THE WINNERS (reading L-R): Dan Anzel, 220-yard free
style — David Alvarez, 80-yard free style — Ken Brown,
80-yard backstroke — Felix Grauss, 80-yard breaststroke;
80-yard butterfly — Jim Cunningham, 40-yard backstroke.

SWIM CLASSES

Children's Swim Classes: According to Miss Loretta Barriours and Mr. Randy Lim, the two swimming instructors for the children, the classes are progressing very well. Children who previously have had no experience with the water have learned to adjust and play in the water and are progressing very well toward real swimming skills.

The classes are held at the Millberry Union Pool Saturday mornings, 10 a.m. - 12 noon. Each class is given a half hour lesson. Instructions are given according to the skill level of the children, ranging from non-swimmers to advanced swimmers.

The children who are taking the classes are from families of students, faculty and employees of the Campus.

Adult Swimming Classes: Another series of swimming instructions will be given by Mr. Tony Montari of the recreation staff of Millberry Union for the remainder of this semester. Instructions will be given at the Union Pool Tuesday and Thursday evenings, 6:30-7:30 p.m. Interested adults should sign up at the Athletic Control Desk of the Union, or get in touch with Mr. Montanari at MO 4-3600, Ext. 723.

2nd Annual Easter Golf Tournament: While everyone is away somewhere, up in the snow, at sea, in the library, a group of campus personnel were away at a certain place called the Sharp Park Golf Course, happily swinging away with what they called clubs at a little solid white ball.

This golf course turned out to be operated by the San Francisco Recreation and Park Dept., and what these people spent the whole day doing was goofing, correction please, golfing. There was a fine representation at the meet; a total of 25 participants.

Robert Parr won the first place prize of a Sam Snead putter with an 80. Glen Carey walked off with a one-dozen box of golf balls for his day of work in winning second place with an 81.

But, unfortunately, the third place winner with a score of 83 was not rewarded. However, five other golfers considered their day's work was worth while as they ended up with a Giants ballgame ticket a-piece. These fortunate five with something to brag about were the winners of the Bogey prize, all having three strokes on the 12th hole.

Women's Swim Meet: Comparable to the men's meet, the women's meet was also a great success as there was a fine turn-out of excellent swimmers, including an unsuspected one. This meet was the first of its kind for the women of this campus. All the winners' times became official records of the pool, as set by the women.

Events were the 20-yard and 40-yard free style, 20-yard butterfly, 20- and 40-yard backstroke, 40-yard breast stroke, 80-yard four-women relay and diving.

Loretta Tuck churned the length of the pool with a 10:9 timing to win over Francie Jally, Judy Strout, Helen Kruger and Betty Cassady in the 20-yard free style. In the 40-yard free style Lida Chase displayed her swimming form to beat the competitors to win in 24:00. Judy Strout was second and Loretta Tuck, third.

Lida Chase went unchallenged in the 20-yard butterfly and finished with a 11:00 timing. In the 20-yard backstroke it was Lida Chase again, as she beat Judy Strout, Carol Edward and Betty Cassady with a time of 12:6.

In the 40-yard breast stroke, Loretta Tuck beat Lida Chase by an arm's length. Loretta had a time of 34:94 and Lida's was 35:06.

The 4-women relay was taken by the Physical Therapists as they aced out the freshman nurses. With a time of 51:00 the Physical Therapists, with Mary Grace Labuda, Gwen Bell, Carol Edwards and Frances Jally, beat Lida Chase, Loretta Tuck, Marlee Sheets and Pat Ellison.

A comment in regard to the unsuspected competitor of the evening. Dixie Van Buren was the registered name. But the true identity, known to all present, of this shapely creature was a certain well-known swim ace and top-notch dental student who was just having his fun of the evening. He appeared in a very stylish one-piece suit with a matching cap and slip-on bathing gown. He competed in the 20-yard free and actually won but was disqualified for obvious reasons. Due to what was expected to happen, not mechanical failure but something else this writer is not at liberty to disclose, "Dixie" was forced to retire for the evening, but not before a series of interesting pictures was taken.

SCHOOL OF DENTISTRY NEWS

by JOHN C. DITTMER

Evening of enjoyment awaits faculty and students of the School of Dentistry.

Students of dentistry and dental hygiene, as well as their faculties, are cordially invited to attend the annual Dental School Formal which will be held this Saturday, April 22, from 9 p.m. - 1 a.m. at Millberry Union.

According to Brenda Byram, Student Body social chairman, Paul Bodakian's group will provide the music and a buffet supper will be served about 10:30 in the evening. Bids are being sold through your class social chairman at \$3.00 per couple.

Dress will be coat and tie for the gentlemen and appropriate party dress for the ladies.

The Psi Omega dental fraternity will host a cocktail party before the dance. Rooms will open at 7:30; address, 101 Woodland. Refreshments will be sold.

So remember - April 22 - 7:30-9 cocktail party. Psi Omega house, 101 Woodland. 9-1, Dental School Dance, Millberry Union.

Handbook on International Study

The *Handbook on International Study*, a comprehensive guide listing international scholarships, has been published for the first time in two separate volumes by the Institute of International Education.

Entitled *Handbook on International Study: For Foreign Nationals* and *Handbook on International Study: For U.S. Nationals*, the just released books are designed as sources of information for college and university personnel, student advisers, libraries and persons desiring data on all aspects of international scholarship programs.

The handbook, now in its third edition, is truly a "how-to" guide on international education with information ranging from where to study higher mathematics in Germany to child-welfare in the U.S.A. Both books not only list the awards and grants of major scholarship programs, but also state the requirements for these programs, describe American and foreign education, and discuss government regulations affecting the international student. The scholarship programs listed range from grants for the mature specialist to awards for the teenager.

The 300-page handbook for the U.S. nationals gives other information valuable to the student who wants to study in a foreign land. There is a comprehensive listing of colleges and universities in 91 countries, as well as the names and services of organizations willing to help the "exchange" find living quarters or meet new people in the community where he is studying. There are tips on selecting a school in another country, an explanation of degree and credit requirements of both U.S. and foreign educational systems, and an extensive bibliography in the field of international education. A special section covers summer study abroad.

This third edition of the IIE handbook has several new features, including a discussion of the new African nations and their educational systems, a listing and discussion of available foreign study programs for U.S. undergraduates, and many of the new scholarship programs launched in the last three years.

The price of the handbook is \$3.00 for each separate volume or \$5.00 for the set of two. The books can be purchased from the Institute of International Education, 1 East 67th Street in New York City or from its regional offices listed below:

116 South Michigan Avenue, Chicago 3, Illinois
1605 Pennsylvania Street, Denver 3, Colorado
731 Texas National Bank Bldg., Houston 2, Texas

by AN OBSERVER

I'm sure that in the past every student at the University of California Medical Center has heard some comments about professional dress and conduct. These remarks, in all probability, originate from the fact that the Medical Center is frequently visited by the general public. In our endeavor, we, as students of the University of California Medical Center, come in daily contact with these people, who are here for a number of reasons — some on business, others because this is their place of employ, and others because they believe that the University of California Medical Center is the *ultimate* in the Medical Sciences; they are here because they believe that if there is any one place that can help them, it is at this institution. It is indeed in their eyes a "Center," to which they can turn when all else has failed.

We, as students, don't often have the opportunity to speak with these people, but they do see us as we pass by, and we represent something to them. We represent the future of the Medical Sciences; we represent, in a sense, the trust they will place in the future of the Medical Center. We, as students, form an image in their minds, without their speaking to us or about us, simply by their observing us.

In view of these facts, most students would readily agree that the way we dress and conduct ourselves is a reflection on the University of California and the *Medical Sciences*, and that we should represent ourselves with the pride and integrity which is associated with the Medical Sciences.

"WELL, I DROPPED THAT COURSE."

10th Annual ASSM Picnic

APRIL 23

On this day, Cadavers, Microscopes, Stethoscopes and books will be set aside and a day of fun and frolic will be substituted. For this is the day of the **Annual ASSM Picnic** in Speedway Meadows, in Golden Gate Park. All Medical students and faculty members, with their respective families, are welcome to attend.

It is on this day that the senior medical students, after four long years, summon what is left of their adrenal reserve and issue a challenge to old (faculty) and young (other classes) to meet on the field of battle, namely, the baseball diamond. This, of course, is the highlight of this festive occasion. However, other activities, such as trampoline, beer-drinking, picnic lunch, consumption of ethanol with Hop, organized games for the children, and much more, will be held.

Participants are requested to furnish their own lunches, but ice cream, soft drinks and, of course, beer, will be furnished.

Festivities are to get under way at 11:00 a.m. with the Faculty-Student baseball game being held on the baseball diamond at 11:30. For this first game with the faculty, we would like as many seniors as possible to be present so that they can comprise the first student team. The afternoon will come to an end around 5 p.m.

Maps showing how to get to Speedway Meadows have been sent to the faculty and house-staff, and are on the many posters placed at strategic locations about the Moffitt Hospital, Medical Sciences Building, Millberry Union, and S. F. General Hospital.

Tickets are being sold by class officers, and may also be purchased at Speedway Meadows on the day of the picnic. The modest charges are \$1.50 per faculty member, and 50¢ per house-staff member, wife, and friend (over 5 years). There is no charge for children under 5.

Judging from the beautiful weather we have been having for the past few days, we can assume that the weather will be equally as good for the picnic, and everyone will have a good time indeed.

See you at the ASSM Picnic!

Summer Study Opportunities

Time is running out for the summer scholar to make his study-vacation plans.

To help him answer the big question of "what to study," "where to go" and "how to get there," the Institute of International Education has released two publications on summer study.

For the first time, the Institute has devoted its educational exchange magazine — the **IIE News Bulletin** — to a comprehensive report of summer opportunities. Articles, written by knowledgeable authors, cover such intriguing summer projects as foreign language training in the Soviet Union, Cross-roads Africa, a seminar in Florentine art in Italy, and the Berkshire Music Center. In addition to these depth reports, the **IIE News Bulletin** includes two bibliographies — one on countries and another on summer programs.

The other Institute publication is a booklet entitled "Summer Study Abroad," a new up-dated listing of summer programs, which the Institute publishes annually. The publication lists scholarship opportunities for numerous programs in all fields in 14 European countries, 6 Latin American nations, 3 countries of the Far and Near East, and various award projects in Canada.

Anyone interested in either of these publications should write to the Institute of International Education, 1 East 67th Street, New York 21, N. Y.

The cost of the **IIE News Bulletin** is 25¢. The "Summer Study Abroad" booklet is free.

"IT WAS PERFECT... GOOD FOOD...BOURBON... THEN HE UPS AND GOES TO THE DENTIST"

THE "SERVICE AWARDS"

The Service Awards Ceremony Committee held its 6th presentation of awards to 13 employees with 25 years or more of service to the university.

The ceremony, Friday, March 10, 1961, at 4 p.m. was held in the Auditorium. Provost J.B. de C.M. Saunders was the Master of Ceremonies and President Clark Kerr, the guest speaker. An informal reception followed in the Golden Gate Room, 2nd floor of Moffitt Hospital.

same material. Perhaps someday this will be feasible without an "unfair" equal increase in union fees. We on the other side can't see *paying more* to have the idealistic non-profit student store. We *can hope* it will evolve in due course of time. The Union is new — well under the five-year period of "loss" or "no profit" accompanying an average new business which, incidentally, doesn't have all of the Union's problems.
