Berkeley Academic Senate Meets Today: SF Campus Declares Allegiance to Kerr

SF State Gater Photo by Bob Hollis

A quick brown fox called Free Speech jumped over the lazy dog in Berkeley last week, and disappeared into the hills.

"It took alarm for the second time and flew clean away from us all, under the belief that it belonged to itself."

Students, faculty, and administrators left in the wake of the Donnybrook on the University of California-Berkeley campus over the shibboleth of "free speech" are returning from the battlefield this week while the ugly echoes of "police brutality" and "anarchy" disturb a quiet college town preparing for Christmas.

Berkeley's Academic Senate, meeting today to discuss the student-administration furor, can be expected to announce this week its official resolution.

The San Francisco campus, while not directly involved in the issue, issued a statement yesterday signed by members of the faculty and prepared by the Coordinating Committee of the Academic Senate, San Francisco division, as follows:

"We, the undersigned members of the faculty of the University of California, San

Francisco Medical Center, express our confidence in President Kerr and strongly endorse the maintenance of law and order on University of California campuses.

"Law and order are essential for negotiations and due process of law to solve problems arising among students, faculty, and administration."

The resolution was followed by a statement written by Mel Matsushima, President of the Associated Students, University of California Medical Center, which was addressed to President Kerr:

The Associated Students of the University of California, San Francisco Medical Center, would like to express their confidence in you and Governor Edmund G. Brown; and support your actions in the restoration and maintenance of law and order on the Uni-

versity of California Campuses.

The maintenance of University regulations and campus order are basic requirements for intelligent mediation of differences existing among students, faculty and administration. However, when open dissension among various groups on a campus threatens the foundation of the University, the University is obligated to restore order on the campus with strong enforcement of existing University regulations.

Very truly yours,

Melvyn Y. Matsushima,
President, Associated Students

University of California,
San Francisco Medical Center

Christmas Calendar Starred by Chancellor's Reading Thursday

Millberry's annual Christmas-tree trimming party, with carol-singing and refreshments, will take place on Tuesday noon; Meridian West's Christmas program, Chancellor Saunders' reading, on Thursday; a daily International Christmas observance during the week of December 14-18 at noon in the lounge; the traditional children's Christmas party and preceding Millberry Christmas dinner on December 16; (the dinner will begin at 5 p.m. in the Student Cafeteria, and the children's party, featuring Santa's arrival by fire engine, at 6:30 p.m.)

The Children's Swim Carnival and Little Bear film (described elsewhere in this issue) will be on Friday, Dec. 12.

On Friday, December 18, the Union Film Series special holiday program for adults and children, including eight outstanding short films, many prize-winning, will be shown in the Medical Sciences auditorium at 7:30 p.m.

Winding up the holiday season will be the Faculty Club dinner-dance and preceding silent auction at Millberry, beginning at 6 p.m. with the social hour and silent auction.

Bless us all, every one!

(Christmas . . . "That's a great deal to make one word mean," Alice said in a thoughtful tone.)

On Thursday, December 10, students and faculty will gather in Millberry Lounge to hear a familiar voice begin a memory of Christmas, that has become for all who hear it that elusive and precious substance: the true spirit of Christmas.

"One Christmas was so much like the others, in those years around the sea-town corner now, out of all sound except distant voices I sometimes hear a moment before sleep, that I can never remember whether it snowed for six days and six nights when I was twelve, or whether it snowed for twelve days and twelve nights when I was six."

Thus it begins, and thus we hear it on Thursday noon as Chancellor Saunders reads Dylan Thomas' poetic reminiscence of his boyhood, "A Child's Christmas in Wales." That it would become a Medical Center tradition is devoutly to be wished.

The traditions of Christmas will be remembered in many ways on our campus: with songs, tree-trimming, and good fellowship.

Garage 'Rumble' set for Friday

Shades of Basin Street, the West Side, and Lip's Lower Level of Chicago's Clark Street Jazz-age dens — the Sophomore Dents are taking over, man, and you'd better believe it.

The scene for their first rumble is the third level in the Millberry Garage — and after that, baby, there's no place to go but up.

The Big Cover-Up is this dance they're having, see, with an orchestra for dancing and fancy door-prizes and whatever they mean by "add-

ed attractions." But everybody's invited, you can see for yourself, this Friday night, December 11.

"Refreshments" guaranteed to augment the wind-blocks and added heaters are included in the price of admission, \$1.25 each for stag and drag. "Grubby Best" clothes are in order, and Dick Savage will collect the switchblades at the door. Bob Lamb will give them all back later.

Tickets can also be purchased at the Millberry Union Central desk prior to the party.

Opinions expressed in SYNAPSE are those of students unless indicated otherwise, and in no way express or reflect administrative policy, either of the San Francisco Campus or of the University of California.

Seasons Greetings From Synapse

The holiday season will quickly be upon us and, as Med Centerites, this time of year marks the half way point of the academic year 1964. For Seniors, Doctorates, Private Practice, Internships, and the Service are now realities which are only a few months away. For Freshmen, stability and organization has replaced the awkward adjustment period. For Juniors and Sophomores, relief of passing through their academic courses and prospects of clinic work add confidence to the maturing student. For the Synapse, four months of hard work by the staff and a tremendous amount of campus enthusiasm and cooperation has made the Synapse grow and mature into an effective media of student and faculty expression.

Blessed by a dedicated advisor and staff; a benevolent publisher, the Guy S. Millberry Union; and, most of all, an enthusiastic group of critics and writers on this campus, the Synapse hopes that the New Year will continue to bring these aforementioned ingredients of a well rounded newspaper, and will bring an even greater amount of vigorous campus support.

With half the year over, and the holiday season in mind, may the Synapse and its staff wish to all of our readers and supporters, a Merry Christmas, Happy New Year . . . and a sincere thank you.

Interprofessional Lectures

By NIKKI LaSALVIA and MARVA OLSON

In the past year, the forward act of the U.C.M.C. has been to create a closer unity between schools. It is realized that each profession should have a better acquired knowledge of other integrated professions, yet nothing much is done among students.

Dental hygiene and nursing students have initiated a program with approval of both faculties in which there can be an exchange of professional information. This program will continue for two semesters. Beginning this semester will be a series of four lectures introducing nursing students to normal and abnormal oral conditions. At the end of each lecture will be a discussion so as to allow the nursing students to add information of which they know more about, such as psychological and systemic aspects.

The lecture schedule for this semester is:

December 9—Normal and abnormal oral cavity and health education

December 16—Caries process and fluoridation

January 6—Periodontics and effect of drugs and systemic conditions on the mouth

January 13—Care of dentures and care of geriatric and handicapped patients.

Beginning next semester a team approach is being planned. Nursing students will adopt a senior dental hygienist and take her through her duties to the words and to geriatric and pregnant families outside of school. While the nurse cares for the patient's general health, the dental hygienist will be able to explain oral health and to conduct a minimal prophylaxis. By this means the D.H. will be learning through the nurses how to care for hospitalized and bedridden patients and the nurse will learn dental health education.

Letter to the Editor

November 20, 1964

Mr. Mel Matsushima

Editor, Synapse

249 Guy S. Millberry Union

Dear Mel:

No doubt you have been receiving numerous compliments on SYNAPSE. Since you took over as Editor, SYNAPSE has improved constantly, and in all respects: format, subject matter, and regular appearance.

I want to congratulate you for doing an excellent job.

Yours sincerely,

J.B. deC. M. Saunders, M.D.
Chancellor

JBS:gcm

International Christmas Program

Travel around the world without leaving the campus during the week of December 14-18, 1964. A special International Christmas Program sponsored by the Guy S. Millberry Union will be presented at noon time. This program is the result of some hard work being done by several foreign students with help from the Millberry Union staff with the intent to give to the campus an idea of various cultures from different lands with the Christmas theme as a background.

The program will consist of specially arranged entertainment—the showing of slides and films and the sampling of foods and drink all of which are peculiar to the various countries to be represented. The program will show how these various countries celebrate Christmas or a comparable holiday to it.

The entire UCMC campus students, faculty, and guests are welcome. The program and refreshments are of no charge and it will be held in the Main Lounge of the Millberry Union. Watch for posters and flyers for additional information regarding specifics.

Behavior Study Meeting Results

The Behavioral Sciences Society presented a symposium on "Suicide as a Medical Problem" Tuesday night, December 1st. Brief presentations were given by the three guest speakers: Dr. Jerome Motto, lecturer in Psychiatry; Dr. Henry Turkel, coroner of the city of San Francisco; Dr. Egon Bittner, research social scientist. A question and answer period followed. This was the first of a series of discussion to be presented by the society.

William Brostoff, chairman of the newly formed Society, stated the membership is limited at present to medical students with particular interest in the behavioral sciences, but that expansion to include members of other disciplines is being considered.

ASUC 'Health Team' Treats Third-Party Payment

"Third Party Payment or Medical Care in the Future: Its influence on the Health Professions," is the Associated Students of the University of California San Francisco Medical Center's (ASUC-MC) latest venture in exploring the varied facets of the Health Team. This Program will be held on December 7, Monday at 12 noon, at the Medical Sciences Auditorium.

Tom Piepmeyer and Bill Smith, both in the School of Pharmacy, co-chairmen of the Team Communication of the A.S.U.C.M.C. — informed the SYNAPSE that this program was especially devised to discuss the coming Medi-Care Plan, Insurance Plans, Dental-Health Plans, etc. which effect the Professions of the Health Team and possibly how these plans will aid and perhaps detract from the extensive medical care of the patient who is now unable to afford such extensive treatment.

The discussion plans to review the existing prepaid health programs of each of the professions, project the programs into the future, and elaborate on the benefits which the patient in need will receive and also possibly some which he may need but not

receive. The possibility of discussing different Health plans in other countries and how these plans work may also add color to the program as these plans may be compared to those which are gaining momentum in the United States.

This program is the second one of its kind during this school term depicting the role of the Health Team in a combined effort to better serve the patient. A.S.U.C.M.C. in this second effort, wishes to express the need of inter-professional communication as to the different Health Insurance and Programs available to their patients and also the necessity of understanding how and why these programs are developing in every health profession and just how effective these programs seem to be.

Actively engaged in working out the numerous details of such a program are Tom Piepmeyer, Bill George, and Bill Smith, Pharmacy; Troy Daniels, and Neil Satre, Dentistry; Joan Winston and Terry Rasmussen, Dental Hygiene; Lee Smith and Lee Hoffman, Medicine; Fay Miura and Nancy Hofman, Nursing; and Sue Borchedt, Physical Therapy.

Chancellor Saunders Receives Honors; Lectures On Tour

Dr. John B. deC. M. Saunders, Chancellor of the University of California Medical Center, was honored by the American College of Dentists as an Honorary Fellow Sunday, November 8, at the Convocation Luncheon held by the A.C.D. Dr. Saunders was the principal speaker at the luncheon speaking on "A Resume of Some Lighter Episodes in the Early Development of Medicine and Dentistry on the Pacific Coast." Dr. Willard C. Fleming, Vice-Chancellor and Dean of the School of Dentistry, read the citation and presented Dr. Saunders with the citation applicable to an Honorary Fellow of the American College of Dentists. Earlier in the week, Dr. Saunders addressed the American Academy of Periodontists and spoke on the "Influence of Research in Direction of Health Sciences."

Chancellor Saunders, previous to the Dental Convention however, participated in two events during the middle of

October. The first was the History of Medicine Society of Chicago's Special Meeting commemorating the 400th Anniversary of Andreas Versalius' death, 1564-1964. Chancellor Saunders spoke at the meeting on "Andreas Versalius; His Work and Interpretation." Dr. Saunders has been asked by the Journal of the American Medical Association to prepare a manuscript of the same topic for publication in the April, 1965 edition of the J.A.M.A. From Chicago, Chancellor Saunders went to the University of Florida, School of Medicine, where he lectured at Hiller Miller's Health Center, at the University of Florida. His topic was "A Critique on Biological Contributions of Leonardo Da Vinci." Dr. Saunders, while at the University of Florida, also participated at the retirement banquet of Dean George Thomas Haskell and added the famous "Saunders color" to the occasion with a few remarks.

Today, the Medical Center is one of the largest centers for teaching, research and health services in the country. More than 10,000 health professionals have been graduated during the past century and over 18,000 practitioners in the health sciences participate annually in post-graduate programs. The research programs of the Center's Biomechanics Laboratory, Cancer Research Institute, Cardiovascular Research Institute, Hooper Foundation, Hormone Research Laboratory, Metabolic Research Unit and Proctor Foundation have achieved international distinction.

To honor the founding of this huge complex, the School of Medicine held a commemorative program, "Medicine and Human Values," November 20. Alumni members and distinguished guests gathered to discuss the growth of medical education during the past century and the directions it will take in the future.

Enrollment on the San Francisco campus is expected to increase from the present level of 2100 students to 5600 students by 1960 and 7500 students by 1990. The multimillion dollar long-range development plan for the Center underlines the extent of its future growth.

THE SECOND COMING

Turning and turning in the widening gyre
The falcon cannot hear the falconer;
Things fall apart; the centre cannot hold;
Mere anarchy is loosed upon the world,
The blood-dimmed tide is loosed, and everywhere
The ceremony of innocence is drowned;
The best lack all conviction, while the worst
Are full of passionate intensity.

Surely some revelation is at hand;
Surely the Second Coming is at hand.
The Second Coming! Hardly are these words out
When a vast image out of Spiritus Mundi
Troubles my sight; somewhere in sands of the desert

A shape with lion body and the head of a man,
A gaze blank and pitiless as the sun,
Is moving its slow thighs, while all about it
Reel shadows of the indignant desert birds.
The darkness drops again; but now I know
That twenty centuries of stony sleep
Were vexed to nightmare by a rocking cradle,
And what rough beast, its hour come round at last,
Slouches towards Bethlehem to be born?

'Next Week East Lynn' For Dental Lecturer

By BOB REINHARDT

Lt. Col. Andrew Christopher, Preventive Dentistry Officer of Fort Ord, California, spoke here on "The Army's Preventive Dentistry Program" Wednesday night, December 2d, to a group of faculty and students of the Dental School and Dental Hygiene curriculum. Colonel Christopher was invited here by Dr. E. Charles Watkins of the Department of Operative Dentistry to present the regular lecturer on dental health he gives to all incoming recruits at Fort Ord. The lecture is part of a broad Army program of patient education, which attempts to instill in recruits the motivation to

start thinking of dental health in terms of prevention. Col. Christopher's liberal use of lay language, his agile wit and stage presence transformed this normally dull subject into an exciting and entertaining, but most of all, moving, sermon.

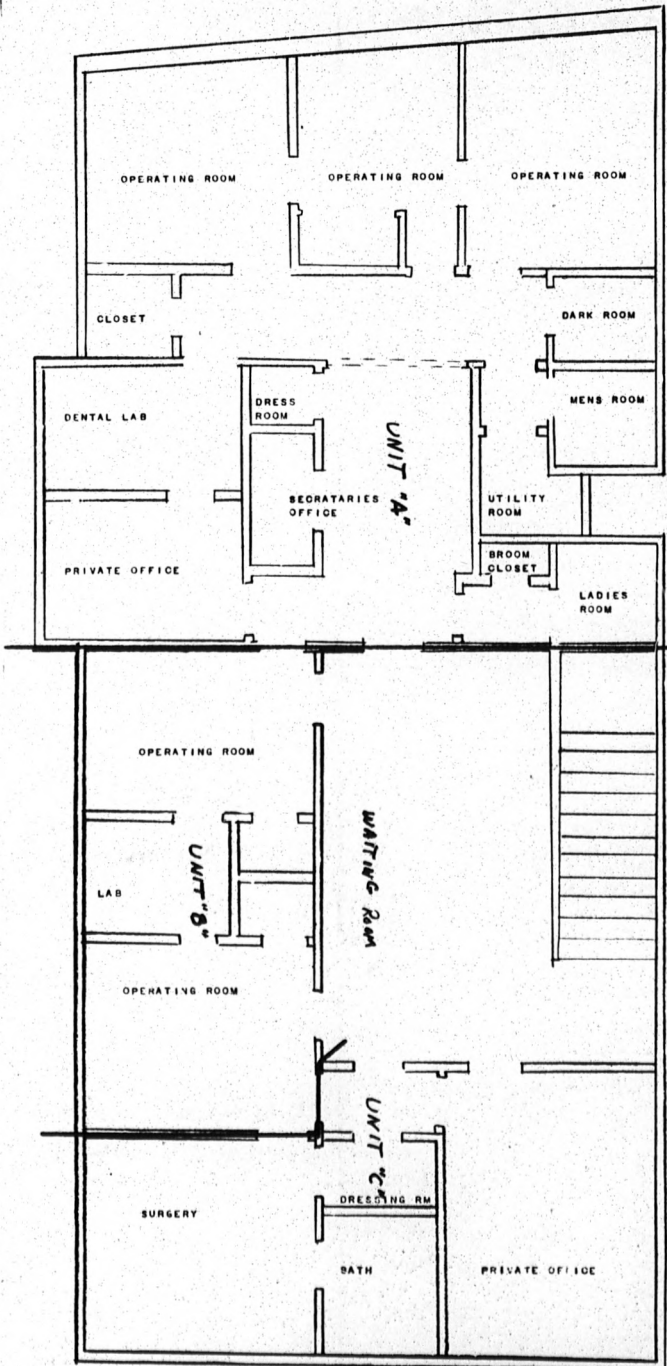

Col. Christopher characterized dental disease as being due to (1) filth, (2) laziness, and (3) ignorance. He stressed the responsibility of the dental profession to educate at the chairside, in schools, and through the mass media. He said that in order for preventive dentistry to attain any measure of success a "Team" must be formed of the individual with his dentist.

Invite Foreign Students For Christmas

There are approximately 110 foreign students representing some 26 countries now attending classes on the San Francisco campus. Some of these students are away from home for the first time. Most cannot go home to celebrate Christmas and do not celebrate Christmas at all.

Let's show our foreign students what an American Christmas really is and display our goodwill toward man by inviting a foreign student to join us in our home this Christmas.

Those interested in doing so are requested to contact the Union Recreation Department in Room 243 of the Union building where sign-ups will be taken. Miss Vicki Lee, recreation fieldworker, will coordinate this program. Let's make our foreign students feel a part of our wonderful Christmas by giving them an opportunity to spend Christmas with us in our home.

Foreign students desirous of taking advantage of this opportunity are requested to contact Miss Lee.

New Bridge Tournament

For the general information of all bridge-playing enthusiasts, it is again announced that the Millberry Union is sponsoring a continuous program of duplicate contract bridge tournaments each Tuesday evening from 7-10 p.m. in the West lounge of the Union building. The fee is 50c per session for Union members and spouse and 75c per session for non-members and guests. All campus personnel, students, faculty, employee and guests are eligible to participate. The director of the duplicate tournaments is Mrs. Marge Jackson, wife of Mr. Frank Jackson, author of the Examiner bridge column. Those participating do not have to participate on a regular basis but can come any time. Tickets may be purchased at the Union Central Desk prior to the night's tournament play and these are turned in to the tournament director. For additional information contact the Office of the Recreation Supervisor, Room 243, Millberry Union.

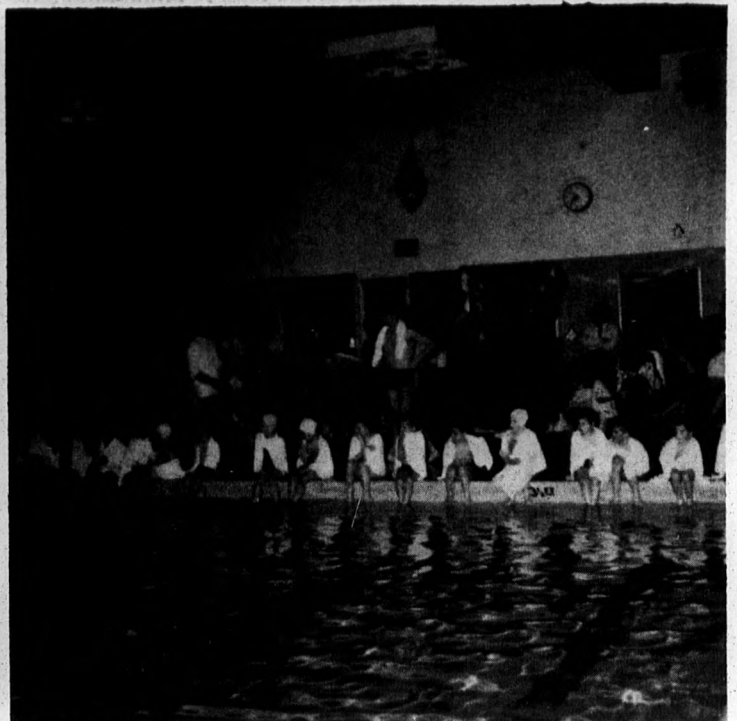

To Transplant The Rupture of A Young Man

Cut three tufts of hair from the centre of his head; tie the same in a clean cloth, carry it into another district, (county), and bury it under a young willow tree, so that it may grow together. Proved.

(Albertus Magnus: White and Black Art for Man and Beast)

The sixth annual Millberry Union children's Christmas party will be held on Wednesday evening, December 16 from 6:30 to 8:30 p.m. There will be cartoon films with special entertainment and refreshments in the gymnasium and a Christmas water show to be presented by the San Francisco Merionettes in the Union pool. Highlighting the event will be a visit from Santa Claus and his helpers who will arrive via fire engine. This is an event for the children of all campus personnel, students, faculty and employees. There is no charge for the event. This year's party is planned to be an outstanding one. Don't let the children miss Santa and the special entertainment to be provided on this night.

To culminate the completion of the fall series of children's swim classes the Recreation Department will host a special children's swim carnival on Saturday, December 12, from 9 to 11 a.m. Parents are especially invited to attend this event with their children. The children will demonstrate the skills that they have learned and will be entertained by some exhibition diving and swimming. There will also be relays, races and the very popular penny dive. Highlighting the carnival will be the awarding of the swim class "skill cards." Each child will receive a card signed by his swimming instructor which will designate the progression he has made in his swimming skills. In keeping with the season the theme for the swim carnival has been designated "Christmas Carnival." The pool will be decorated accordingly with a lighted Christmas tree.

Award Given to Delts At Family Night Party

Dr. Stephen G. Applegate, Supreme Scribe of Delta Sigma Delta Professional Fraternity, presented the Outstanding Undergraduate Chapter Award to Zeta Chapter, located here at the University of California Medical Center, at Zeta Chapter's Family Night, Wednesday, November 11, at the Delt House. This award is presented to the Chapter which best represents the professional bearing and the tradition of the fraternity which is exemplified by both service and social activities.

Dr. Davis Ralston, Deputy Supreme Grand Master of Zeta Chapter, accepted the Award for the 120 member chapter and added that "six years ago Zeta Chapter was thirty-second out of thirty-six undergraduate chapters and this year it is number one." Dr. Ralston went on to explain that since Zeta Chapter elects officers in the middle of the year, both past and present officers should be commended for the outstanding effort required to obtain the Award. He cited Grand Masters Ray R. Scott Jr., who is now practicing in Los Banos, and Ronald R. Snell; Scribes Yoshitaka Shitanishi and Walter Hopkins; and Historians Jack Rosser and Ron Fink for their individual efforts and personal sacrifices during the year 1964. Along with the Outstanding Chapter Award went a check for \$100 to Zeta Chapter from the Supreme Chapter.

Speeches followed the Awards. Honored Supreme Chapter Guests speaking included Drs. Hinson Jones, Pat Lyddan, Past Supreme Grand Master; S. G. Applegate, Supreme Scribe; Quentin M. Ringenberg, Supreme Grand Master-Elect; and Davis Ralston, Deputy Supreme Grand Master, Zeta Chapter. Dr. Don Jose Aubertine, Supreme Grand Master, was unable to stay to speak to the group due to a time and prior engagement conflict but sent his regards through Drs. Jones and Ralston.

Proud parents, wives, children, guests and dates watched Zeta Chapter receive another award from the Supreme Chapter. This time it was for the Historian's Reports to *Desmos*, the Fraternity News Magazine. Ron Fink and Jack Rosser were commended on their excellent reports to *Desmos* and for their appropriateness and thorough coverage of the life and happenings of the Fraternity. Fink and Ros-

ser are rated as the best in the nation.

Another Zeta receiving an award was Parker Furhiman, who won the Zeta Chapter Award for the highest Grade Point Average of all Delt Pledges in his Freshman year of 1964. James M. Duffin, Senior Ortho Student, was awarded the Outstanding Senior Academic Award for having the highest Grade Point Average in his four years at University of California Dental School. Dr. Ralston making the awards commented also that Jim Duffin has the highest G.P.A. of anyone at the Dental School after the same length of time. The entire assembly enthusiastically lauded them all.

Grand Master Snell acted as Emcee for the night and informed the Synapse that "Among those working terribly hard for the success of the night were Bob Marks, Dr. Randwood Tom, and the 34 pledges of Zeta Chapter." Special kudos also went to Neil Jensen, Senior, who ran the Cartoons for over an hour for twenty active youngsters.

Among the guests were Grand Master Frank Beal of Nu Nu Chapter, P & S; Dr. Henry Trowbridge, Assistant Deputy Supreme Grand Master; and Mrs. Ruth Schill, Secretary to Dr. Applegate.

The Delts will end their 1964 activities with a joint meeting on December 2, 7:30 p.m. at the Delt House with Kappa Psi Pharmacy Fraternity for a lecture on resuscitation and emergency procedures by the San Francisco Fire Department, Rescue Unit. The Seniors and Juniors will receive a demonstration on December 10, 7:00 p.m. at the Delt House, by L. D. Caulk Company, and the Sophomores and Freshmen will do the same on December 8. The social year will end for the Delts with another Po-ping Wong Special Christmas Tree Trim to be held Wednesday, December 16, 1964 . . . 7:00 at the Delt House.

12 Receive Scuba Certification

The Union Recreation Department is pleased to announce the recent completion diving certification course. The program conducted under the direction of Dr. Jon Pegg, Chairman of the Campus Diving Control Board, has now graduated 34 certified divers. Twelve divers were certified during the fall semester course, a task which can be considered an outstanding achievement for each of those who participated. Certification certificates will be issued to the following persons at a formal dinner planned by the course instructors:

Will Hershey, Edward E. Herrman, Robert G. Grant, Art Rabitz, Ernest Perry, George P. Moynihau, Jr., Richard Mirigian, Steve Labadie, Frederick W. Howe,

Dental Clinicians Luncheon

Over one hundred students and guests attended the Student Clinicians Luncheon, given by the Associated Dental Students of the University of California San Francisco Medical Center, School of Dentistry, and held on Tuesday, November 10, at 12:00 m., in Steninger Gymnasium. Braving a torrential downpour which greeted the American Dental Association Convention for the entire week, the Stalwarts, wives and guests joined the senior Dental Class and the Senior Dental Hygiene Class for lunch and an exchange of information from school to school of the 47 Dental Schools throughout the country which were represented at the luncheon.

Gary Lee Steyaert, president of the Associated Dental Students, acted as Emcee and welcomed all of the guests to the San Francisco Campus. He then introduced Vice-chancellor and Dean of the School of Dentistry Dr. Willard C. Fleming who officially greeted the guests and gave a short talk on the Profession of Dentistry. Dr. Fleming was followed by Dr. George Steninger, Guy S. Millberry Board of Governors, who first of all spoke of the formation of the Guy S. Millberry Union and then introduced a group of visiting Japanese dentists who were luncheoning elsewhere.

Med Wives Song Party This Week

The Medical Student Wives Association of UC Medical Center will start its Christmas Party festivities at 6:45 p.m., Thursday, December 10 with a visit to Laguna Honda Hospital where patients will partake in caroling and receiving gifts and pastries. The MSW group will then proceed to the home of Dr. and Mrs. Norman J. Sweet, 10 Ventura Avenue, for a general meeting and entertainment by the MSW choral group. Mrs. Robert B. Dunne is this year's Christmas party chairman.

Highlighting the day's events, was a tour of the school directed by Sue Hurney, President of the Senior Dental Hygiene Class.

Mr. Steyaert called the luncheon "a truly successful one, and one in which the exchange of ideas was even better than I had anticipated. Everyone attending took something away from the discussions being carried on at the various tables." Mr. Steyaert went on to thank Cecil Sala for his excellent service for the luncheon; Jerry Pacheco for his hustling delegates all over Nob Hill and the Civic Center; the Luncheon Committee mentioned in Synapse 4a; and Sue Hurney and her classmates for the well conducted tours.

Write upon a piece of paper, Quosum sinioba zenni tantus lect veri, and hang it on a string over the back.

To Ascertain Whether a Sick Person Will Become Well Again

Cut a piece of bread, rub the patient's teeth therewith, and throw it before a dog. If he eats it, the patient will recover. Ootherwise, the disease is dangerous.

Jobs Abroad For Students Under ISTC

NYU, N.Y.—JOBS ABROAD plans for 1965 were today announced by the International Student Travel Center (ISTC), 39 Cortlandt Street, NYC 7, NY.

"Jobs in Europe for nearly 800 students and teachers from 17 to 35 are available year-round and summer" Executive Director Frank X. Gordon said. "We also have two new programs," he continued, "a Summer Camp on the Spanish Balearic Island of Ibiza for teenagers 13 to 16 and a 10-day, round-trip, steamer cruise from Rotterdam down the romantic Rhine river to Heidelberg University. Parents and relatives can also participate in these new programs."

"A full selection of jobs is available year round. The best jobs are in the Common Market Countries as well as in England, Scotland, Ireland, Scandinavia and Switzerland. Jobs are also available in other countries," he added.

"The variety of jobs range from resort/hotel work to chauffeuring, factory and farm work. Over 500 students were successfully employed abroad by ISTC in 1963-64."

Mr. Gordon announced the appointment of Gareth L. Steen, Madison, Wisconsin as Assistant Director of ISTC. Steen, a 1963 participant in the Work-travel program, is a 1964 Journalism graduate of the University of Wisconsin.

Plan ahead, Mr. Gordon emphasized. These job opportunities are in great demand. Those desiring to participate must allow 2 to 4 months for processing. There are savings and job choice advantages for those joining before December 10, 1964.

Free information can be obtained from your placement office or by writing to ISTC in New York City.

Expectorations

By NIKKI LaSALVIA and
MARVA OLSEN

Our article may be a little short this time due to the fact that in the past few weeks there has been a lot of midterms. They sure put a damper on activities. Upon completion of a week of exams, Jay Pearson decided that dentistry was not his chosen profession. He feels more adopted to art since he has had experience in sketching live models. How about Art Major? Others also have made serious decisions lately. Chris Thompson surrendered two of his most valuable possessions to a girl—his pin and his car. Brother, that's a sign of true devotion. In light of her recent engagement, Vickie Brisbane is now planning her Easter wedding. Lee Harmon terminated his frustrations of midterms by getting married. That's really drastic!!

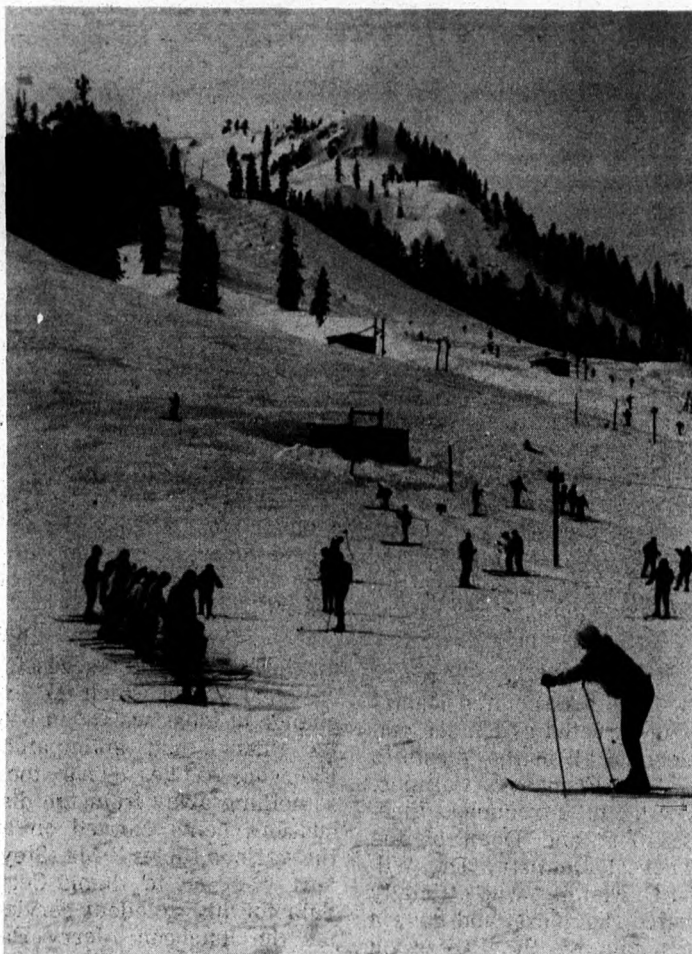

What's this we hear about the Psi Omegas having no theme for their pledge party? The afternoon before the dance we saw John Pearson madly scurrying around buying decorations and pondering over a theme. He got waylaid in Blum's, however, and we think he became too engrossed in flipping for ice cream sodas with senior D.H.'s to worry about a theme. Could this be, J.P.? Oh, well, the dance was a big success anyway.

Poor Monte Bonello had troubles after lab the other day when he was hurriedly trying to put his can of Coecal in his locker and dropped it. Dental stone blanketed the floor around his locker. What a mess! Meanwhile Bob Birtcil was having trouble casting up to his crown. It seems, or so the story was related to us, that he forgot to remove the heavy weight for partials and as an end result had gold flying in all directions. It really wasn't the end result for he foolishly attempted it again (he should have quit and gone home). This time he forgot to rewind the caster and therefore only the occlusal surface of his crown was casted. Final end result: do it again!! Skip Lawrence was having similar problems as he was still in the bal at 6:00 p.m. as everyone said "good night, Skip." He was still waiting for an oven to heat up.

Care packages!!! Yes, you read right. It seems that Sharon Chrystie is sending care packages of artichoke hearts, anchovies and other delicacies. The only strange thing is that she sends them via the "roof express" to Dick Savage's room.

Last month U.C. was honored to have the Academy of Gold Foil Operators on the sixth floor clinics. As each of the famous dentists completed his foils, his name was called out and everyone went over to admire his work. Meanwhile, Woody Eaton was attempting his first gold foil. Everything

Ski Excursions

The Millberry Union Recreation Department has announced that it will sponsor two special weekend ski excursions to Squaw Valley during the coming ski season. The first excursion is scheduled for the weekend of January 29-31, 1965, at semester break time. To handle a large group the Union has made arrangements to take over a whole chalet at Olympic Village. The program at a cost of \$23 per person with 3 to a room and \$24.50 with 2 to a room will include round trip transportation by Greyhound bus, two nights lodging, breakfast Saturday and Sunday mornings and dinner Saturday evening all at the Olympic Village

Hotel. The second trip over Washington's birthday is scheduled for February 19-22. This will be a three-day, 3-night excursion on very much the same basis as the first excursion with the exception that the cost will be \$33 per person with 3 to a room and \$35.50 per person with 2 to a room. In addition to the transportation, lodging and meals, those participating will be given special reductions on ski lift tickets, ski lesson and ice skate rentals at Blyth Arena. Information flyers will soon be available for campus distribution. In the meantime information inquiries may be made at the Office of the Recreation Supervisor, Room 243, Millberry Union.

was quiet, he completed the case and waited almost half expecting to have his name called out when—oops, it fell out —

Speaking of seventh floor clinic, one can usually see Dale Sutton propelling himself speedily around "via" his chair. In fact sometimes he gets so energetic that he falls flat on his back. My, my such laziness.

Before getting off the subject of "professional" dental students, we feel that the Soph lab boys should be mentioned. They feel that breaks are a necessity, but they hate the walk to the shack, so 20-30 boys will flip to see who goes after ice cream cones. The poor loser is quite a sight with 20 dripping cones. They insist the Crown and Bridge instructors gave them the idea. Mike Hoey is so smart that instructors even announce in class that he received the highest grade in the Path quiz. Bob Nakamura

wanted to cover his lab desk with formica only the piece was too large so he proceeded for fifteen minutes to cut it with a Joe Dandy. Today, it still puckers in the middle, but he likes it for it's like working on a cloud.

Hey Mike Panzer, are you going home to get your laundry done again this week?

Bill Clements and Sid Smith weren't so pleased with their room at the Delt house so they moved into a room downstairs. How do you boys like living without a lock on your door? Bruce Frenning cast up seven crowns in materials. Hope one fits, Bruce!

Don't forget? For coming excitement at U.C.M.C. the junior nurses and D.H.'s are having a "Piggy Polka" on December 4 and the Soph Dental Class is presenting "West Side Story." This dance is open to all students. Hope they are both a big success.

END OF A SHORT COLUMN!!!!

Macerations

By STANLEY KLEINER
and LOWELL McNICOL

Well, it's the middle of the semester already, and things are really humming in Pharmacy School. Chem. 5 is certainly a sore spot with the freshmen. Only last week Alfred Pilehurt spent 85 consecutive hours titrating his first unknown sample. He was forced to quit when his thumb got caught in the burette and it exploded in his face. He is currently in U.C. Hospital recuperating from a fractured navel. Get well soon Alfred!

A social mix took place last night at the Tapa Nu Kega fraternity. It was just one more of the always exciting social events within Pharmacy School. The ping pong tournament proved to be the evening's highlight. In the tense final match a forfeit was called when Silvia Beaver got the ball stuck in her throat as it rocketed off Jim Clean's paddle. Oh really Jim, don't be so rough!

Congratulations are in order for Hazel Grapevine. She finally won her man. She has poor Arnold Column all wrapped up.

Congrats also go to Clarence Particle. He's succeeded in making the smoothest snake lotion in the school's history.

Students of Pharmaceutical Chemistry 100 are studying the chemistry of natural products. Mildred Phrummph is devoting her efforts to clinical evaluations of certain naturally occurring sex hormones. The outcome of her experiments is at this point uncertain, but it has been re-

ported that a pictorial account of her findings is to be published in the March issue of Playboy Magazine.

The big day is just around the corner. The tension has been terrible. For the sake of the Seniors, I hope the answer comes soon. Will they be chocolate filled cherries or almond covered creams? Stay patient Seniors! Those candy boxes will be here any day now.

Just the other day Rush Job was attempting several experiments at once in the Physical Chemistry Lab. The results proved most interesting. We now know through Rush's hard work that Dr. Goyan's camera isn't waterproof and that buffer solutions aren't made by mixing chlorosulfonic acid and ammonium hydroxide. Poor Rush is still trying to measure the refractive index of his India ink suspension. His buddy Mervin Slump hasn't been contributing much at all. As soon as they find the key to let him out of the dark room, he and Rush will whip right through the 103 other experiments.

Pharmacy Compounding lab can have deleterious effects both on the compounds and on the students involved. As an example, two weeks ago, Avis Aardvark developed an infraction crown and bridge which resulted in a double hernia of his harpsichord. To make matters worse, his label was crooked.

Well, that's all for now folks. Remember, we're in need of more gossip. Got any? Tell us!!!

The Locker Room

By EARL SHULTZ

In the confines of every great university one finds outstanding men of unusual talent. The Medical Center has its abundance of world-renowned figures and I would introduce you to another individual. While others have chosen to distinguish themselves through research, outstanding clinical achievement, and educating the prospective physicians of America, this boy has spent his time in another very fruitful area. He is the present possessor of 178 medals and 128 trophies. The first of his great achievements was to annex the New York City marble championship title and eventually ended up in the number four slot in the international championships. Then later as he apparently liked to see things roll round and round he took up roller skating and won the speed skating championship of New York. To these worlds already conquered he then turned to playing with birds. It was hardly any time before he won the North Eastern badminton title which included all of the New England states. That is a hell of a feat inasmuch as the Kennedys seem to have everything wrapped up in that part of the country. A man of this talent could not go un-noticed and he didn't. Dear old Uncle Sammy grabbed him up (U.S. Marine Corps). While in the service he ran in the Boston marathon and placed 30 out of the 196 entrants.

Now as you see this man has a great deal of talent. So it really comes as no surprise that the Regents of this great university after minimal consultation decided to allow him to enroll at Berkeley. Why consider the honors he might bring to the university and besides think of how great he would be during fraternity rushing when they brought out the black and white marbles to bong or accept a prospective member into the big FRAT CLUB.

Fraternity League

With the final week of league play now completed, General Services (employees) loomed as the straight-out league champs with 5 wins and no losses in the men's fraternity basketball league. Following in close second was the Kopper Kettle (Hastings students) team with a 4 win, 1 loss record. Since the General Services team and Kopper Kettle team are not eligible for intramural awards, Nu Sigma Nu with a 3 win, 2 loss record becomes the fraternity champs and will be awarded the intramural award trophy. Nu Sigma Nu was followed in the fraternity standings by Rho Pi Phi with a 2 win, 3 loss record.

Once at the university, the phantom lettered in varsity, track, cross-country and basketball. He remained at the university from 1953-1960 and during this time he served as the field director of intramural sports and a supervisor of recreation at the Strawberry Canyon recreational area. He has owned and directed a swim and ski school in New Jersey and at one time served as athletic director of the Alameda Naval Air Station.

By now I hope I have created a desire by some readers to meet this man of extraordinary ability. He has his graduate degree in Physical Education from the Berkeley campus and is a very talented individual. He will be happy to meet with any of you. You can find him every day operating the Millberry Union athletic facilities. He may be found at the Athletic Control Desk. His name . . . well it is Alex Kerr. He is the new athletic director in the Recreation Department of the Millberry Union. Bud Alexander, Recreation Supervisor, states that we are fortunate in having him on our campus. His enthusiasm will generate increased interest in all phases of our campus athletic program.

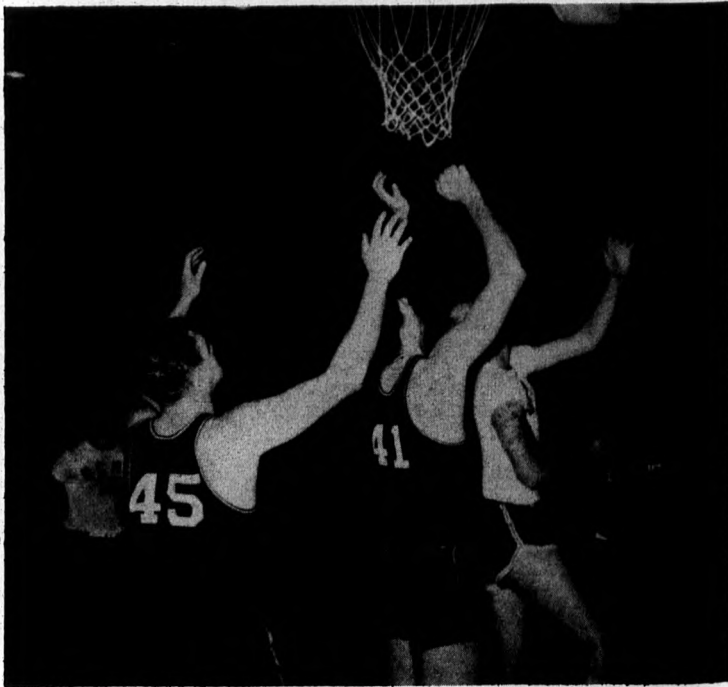

Women's Basketball

Though play has been sometimes hectic and without doubt exciting, the women's intramural basketball league has drawn to completion with a lot of fun enjoyed by all who participated. League winners were Lambda Kappa Sigma II followed by a second-place tie between their sister team Lambda Kappa Sigma I and Frosh Nursing. The pharmacy girls Lamba Kappa Sigma II and Lambda Sigma I plan a fund-raising event game to be held on Thursday, December 17 as the finale to the women's basketball league. The game will be played in the Steninger Gymnasium at 6:45 p.m. with all designated proceeds to go for the purchase of medical supplies for the ship Hope. Everyone is invited to attend especially all those males who tried so desperately to squeeze through the gym doors for the earlier league games. Up to this time the women have wanted to seclude themselves and have not permitted spectators. The doors will be open, however, for this special fund-raising event game. The team standings as of November 30 are as follows:

	Wins	Losses	Ties	Forfeits	Total Points
Lambda Kappa Sigma II	3	0	1	0	10
Lamba Kappa Sigma I	2	2	0	0	8
Frosh Nursing	2	2	0	0	8
Second Year Nursing	1	2	1	0	7
Physical Therapy	1	3	0	0	6

Point System:
Win — 3 pts.
Tie — 2 pts.
Loss — 1 pt.
Forfeit — 0 pt.

Victory is the word

Independent League

With 8 teams playing, the men's independent basketball league has found the competition tough in every game. With just two nights of league play remaining, the Jr. Dents managed by Dave George and the House Staff managed by Marv Goldman stand at a first-place tie each with 5 wins and 1 loss. Each of these teams meet tough competition in their final games. No one is willing to speculate at this point what the outcome will actually be. The Frosh Meds and the Soph Dents are tied for third place each with 4 wins and 1 loss records. The Old Man's A.C. sits high and mighty in 4th place with a 3 win, 3 loss record. After 4 years of competition this is the first year that the Old Man's A.C. has won more than 1 game.

The "big game" to watch will be the Frosh Meds and Jr. Dents game scheduled for December 8, the last night of league play. It may well be that the league winner will not be determined until the last shot is fired in this last game. Of special interest was the loss of Bill Alexander to the Jr. Dents due to an ankle sprain. Alexander started off the season with a 42 individual scoring spree in the Jr. Dents first game. Bill will be suited for the final game and his presence may well make the difference.

Ladder Tournaments

Intramural athletic director Al Kerr has informed the Synapse that a series of intra-

Intramural Basketball

The intramural basketball championship play - offs will start on December 10, 1964 with semi-final games between the first and second-place teams in both the independent and fraternity leagues. Games will be held in the Millberry Union gymnasium at 7 and 8:30 p.m. The winners of these two games will then play for the intramural championship as a preliminary game to the UCMC varsity game against the Cal Blues on January 11, 1965. Following the semi-final games the all-star teams of the independent and fraternity league will be announced and a picture for the Synapse will be taken.

murals ladder tournaments is now being organized. Competition in handball, squash, billiards, two-man volleyball and table tennis is planned. Sign-ups can be made by contacting Al at the Athletic Control Desk. Full information regarding tournament dates and other details are now available and may be picked up at the Athletic Control Desk also.

Victory is the word as the UCMC varsity basketball team met its first opponent in official AAU basketball competition on Monday, November 30. Exploiting their talents the Medics scored a decisive 101-74 win over the Bay Area Catering Team which had previously beaten the UC team by a slight margin of 78-74. In a practice game held earlier in the season. The Medics first game of the season also was a win over Hamilton Field with a score of 108-82. In the UCMC vs. Bay Area Catering game high scoring honors went to forward Jim Smith on the UC team who putted 10 field goals and 5 free throws for a total of 25 points. Jim was assisted by John Clemensen with 16 points and Brian Kniff and Doug Clemensen each with 14 points. The Medics will meet Bay Area Catering again in the second round of AAU competition. The Medics game schedule is now available and may be picked up at either the Central Desk or the Athletic Control Desk. All AAU games will be played on the Medics home court. In addition home and away games will be played against Stanford Braves, Cal Frosh and Cal Blues, S.F. State J.V.s and Hamilton Field. AAU league competition will bring the Medics up against stiff competition from the S. F. Athletic Club, Veterans of Foreign War Club, Santa Rosa All Stars, Concord All Stars, Richmond All Stars and Reno All Stars. AAU league will consist of a double round with each team playing the other team twice. The Medics are loaded with outstanding talent and are expected to rack up an outstanding win record during the 1964-65 season.

Anyone for Volleyball?

Ye "old" Steninger Gymnasium has been a busy place the past few Wednesday nights. Originally scheduled for "Spouse Night" and "Women's Activities," play has given way to Co-Recreational Volleyball and Badminton. Because of the interest shown for mixed activity, it has been decided that the Recreation Department should encourage more use of the facilities for this purpose. Therefore, and so that everyone may get in on the fun, Wednesday nights will be considered Co-Rec. Night in addition to Spouse and Women's Activities.

Anyone (men or women) interested in playing is encouraged to join in. The gym will be open from 7:00 to 9:30 p.m. for these activities. Informal instruction on the trampoline is given from 7-8 p.m. for those interested. See you there.
